

## O(N)CS LESSONS SUPPLEMENTARY MATERIALS

### 2017-2018 ORDER FORM

The cost of a one-year license for the 24 LESSON SUPPLEMENTARY PACKAGE is \$250. Purchase a one-year license to obtain and use the supplementary material packages (study guides, quizzes, tests, lab solutions) for the 24 FREE lessons listed below. Once a purchase is made, a login and password will be provided for downloading the materials from the [oncslessons.net](http://oncslessons.net) website. As a BONUS, all fifteen UIL Reviews are FREE with the purchase of this package. A separate one-year license for the UIL Reviews only is also available for \$99. A license begins on June 1<sup>st</sup> and ends on May 31<sup>st</sup> of the following year, covers a single campus and grants access to all materials in the package. Upon expiration of the license, a renewal must be purchased to enable continued use of any of these materials for any subsequent year.

The lessons are:

- |                               |                                 |                                   |
|-------------------------------|---------------------------------|-----------------------------------|
| ➤ 1A First Java Program       | ➤ 3B File Input                 | ➤ 6C Loops3 File Processing       |
| ➤ 1B More Output              | ➤ 4A Conditionals – if, if else | ➤ 6D Loops, Arrays, Split Process |
| ➤ 1C Using printf             | ➤ 4B Conditionals – switch      | ➤ 6E Nested Loops                 |
| ➤ 1D printf part 2            | ➤ 5A Methods Math class         | ➤ 7A Arrays                       |
| ➤ 2A Data Types and Variables | ➤ 5B Methods String class       | ➤ 7B Array Methods                |
| ➤ 2B Operations               | ➤ 5C MyClass, JavaDocs          | ➤ 8 Passing Parameters            |
| ➤ 2C More Operations          | ➤ 6A Loops Output Patterns      | ➤ 9 Matrices                      |
| ➤ 3A Input                    | ➤ 6B Loops2 Count, Accum        | ➤ 10 OOP Fundamentals             |

The first 15 problems of each UIL test always cover the same topics, which are:

- |                               |                                |                                    |
|-------------------------------|--------------------------------|------------------------------------|
| 1. Number Base Arithmetic     | 7. Simple Variable Expressions | 13. JOP (Java Operator Precedence) |
| 2. Simple Literal Expressions | 8. Conditionals                | 14. Data Type Concepts             |
| 3. Simple Output              | 9. Simple Output Loops         | 15. ArrayLists                     |
| 4. String class               | 10. Arrays                     |                                    |
| 5. Simple Boolean Logic       | 11. Input Concepts             |                                    |
| 6. Math class                 | 12. Accumulation Loops         |                                    |

- 24 LESSON SUPPLEMENTARY PACKAGE (includes FREE UIL Reviews) \$250
- UIL REVIEWS ONLY \$99
